A copy of your survey must be submitted along with this zoning permit showing the location of the proposed fence.

Fences are permitted to be 4 ft. in the front and 6 ft. in the side and rear of the property. If your property is on a corner you will have two (2) front yards, one side yard and a rear yard.

If you are installing a fence in your front yard we recommend keeping it a couple feet off the property line. Otherwise, fences can be installed right on the property line. The good side of the fence can face your property or your neighbors.
